

Did You Know?

- that the Suffolk County Water Authority **(SCWA) is not a government agency but a non-profit public-benefit corporation. Its business is to purvey water.**

- that SCWA is the only Public Water Company on the South Fork and needs to tap our groundwater reservoir to do its job.

Yet...

- SCWA does not have a Master Plan to Protect, Conserve, and Manage the South Fork's fragile drinking water reservoir.

For more information, or, to join us in our effort to save our drinking water contact:
